CITTADELLA WALLED MEDIEVAL TOWN

Cittadella is a medieval walled city, founded in the 13th century.

The surrounding wall with a diameter of around 450 meters (1.480 ft) has been restored and it is now completely accessible as a pedestrian walkway with a circumference of 1.461 meters (4.793 ft).

There are four “porte”, each with a tower stronghold, which roughly corresponds to the points of the compass: Porta Vicenza, Porta Bassano, Porta Treviso, Porta Padova.

From the top it is possible to admire the town of Cittadella with its historic buildings, and the fabulous countryside with the majestic mountains in the background.
